PROFILE

My name M Luthfi Aditya Putra, 22 years old, a fresh graduate from bachelor of Computer Science at Bina Nusantara University specialization Database System. I learned about C, C++, C#, Java, Javascript and SQL. Currently I am looking for a position to work professionally. Very motivated to be a personality that can be useful for the progress of the industry and grow professionally. I am confident in my abilities that will produce promising benefits. I would relish the opportunity to apply from what I have learned so far at university but also interest to learn new things.
